

This year, the MASC Service Coordinators will be promoting a yearlong service initiative: **Keys of Service!** We have some information to give out regarding how your region can help

support our state charity initiative and also some essential things for future reference.

MASC's goal is to give two seasonal donations to our State Charity. *Believe In Tomorrow* has a wish list of items that they ask for people to donate in order to help them run their facilities and support the many families in their care. Each division has been assigned different items from their wish list. We are asking that each region collect these items throughout the fall-winter season for our 1st seasonal donation in December! Donation items will be brought to the **2018 Fall Leadership Conference at Chopticon High School in St. Mary's County.**

We will also be having another seasonal donation throughout Late Winter - Spring where regions will be able to bring items to Convention.
