

# 2024 MASC Convention

## Housing Request Worksheet - Alternative

*BCSC, BCJC, CRASC, HCRASC only*

During on-line registration, you must enter a housing assignment for each student. Use this worksheet to determine housing assignments. In order to comply with your district's standards on student housing, 2 students are assigned per room so they are in separate beds.

**Please note:** MASC does everything possible to accommodate housing requests; however, the priority must be to maximize the efficient use of space available. It is possible that students from different schools will share the room. We prioritize rooming assignments as follows: 1) as requested, 2) same school, 3) same age group (HS/MS), 4) same region.

As you determine arrangements for your delegation, please follow these guidelines:

- Place the name of each student in the spaces provided next to the 2-character **Housing Code**; 1A, 1B, 2A, 2B, etc. You will enter this **Housing Code** for each student during on-line registration.
- Odd-number rooms are **female** and even-number rooms are **male**.
- **Important:** You must fill up a room before using another. For example, a group of 3 students must be divided into 2 and 1. Any remaining beds will be assigned according to the priority described above.
- **Advisors** - There is no **Housing Code** for advisors. Your rooming is determined by selecting "Advisor" or "Advisor-Private" in the **Role** field. Advisors are housed 2 per room (1 per bed) as near as possible to your region. The number of private rooms is limited. If unable to satisfy such a request, MASC will refund the cost difference. If you arrange to room with a specific advisor, provide that information on-line in the **Comments** box.
