

Brianna Cuba

Frederick County / 2025-2026 MASC 2nd Vice President Candidate

Hi, MASC! My name is Brianna Cuba, a current 7th grade student at Windsor Knolls Middle School, and I am running for the position of MASC 2nd Vice President for the term 2025-2026. I am really excited to take this great leadership opportunity because I want to become more involved in leadership duties and responsibilities.

I feel confident and motivated to demonstrate my commitment and hard work for the benefit of the MASC community. Since my early academic years, I have always performed well in all of my classes as well as doing several different extracurricular activities in the past, but I am continuing on with Volleyball as well as Violin. Currently, in my SGA I have been working on a fundraiser to help children and adults who are suffering because of blood cancer, and approximately over 10 % of Americans are all diagnosed with blood cancer and in child leukemia there are roughly 25% of children who are suffering. I took it upon myself to start creating a fundraiser and wanting to reach out to blood cancer organizations. Seeing if there's an issue, I'm always looking for a possible way to resolve it and assist. I'm constantly striving to find participation in school spirit days/weeks. It made me realize that we as a school are a huge community and I will always try and benefit our school no matter what. Just last year, I was new to middle school, but I was already finding a huge issue when we went outside for break. The recess equipment was all out of shape and had been used to its fullest. A bunch of people were impacted by this. When we don't have safe equipment or enough equipment, it can make school feel more like a challenge than a safe place. That's why it was my mission to find a solution to this. I worked hard to see if I could help and provide newer equipment for everyone to use. As of currently, we are already setting everything up. It made me grow a sensation of awareness, that I had fought to make a change and impact for my school's benefit, and it was accomplished. In regard to my academics, I have always been a part of the gifted and talented program. As an accelerated and honor student, I consistently work hard in school, paying attention and intervening in class. I balance out my time studying and working with my community and establishing new ideas very well. I will continue to work hard while balancing out my schedule between SGA and school, spending all my hours on what is important.

If I am elected as 2nd Vice President of MASC, I will ensure more and engaging student involvement for all students, being able to have the opportunity to share, compose, and learn new leadership abilities. As an MASC member, I have attended a couple of conferences such as FLC and WLC, and I am going to attend the Ocean City Convention. MASC really helped build my passion for leadership and my awareness of my community. I will make sure that all middle school students have their ideas heard, not just thought about. I will promise to promote student representation and involvement in all groups of organizations that change the lives of many students who are eager for change and making an impact for their schools and Maryland. My mission is to boost and motivate students to speak up about personal challenges they are facing in their day-to-day lives and what they could do to prevent it. I will serve as a primary communication tool for all Regional Middle School representatives and the middle school ambassadors, knowing it is a must to have all voices heard. At every MASC conference or function, I will ensure that all students feel comfortable and content while attending by being welcoming and understanding, and also listening to what they have to say. I will make sure that all goals for 2025-2026 for MASC are met and being updated and worked on.

To conclude, being able to have the opportunity of being 2nd Vice President of MASC would be huge and I will make sure to work extremely hard on any duties I have to accomplish. It isn't about me, it's about how many students' lives will be impacted and grow into leaders themselves. For them having an opportunity to achieve and grow is what really matters. I want to change MASC for the better, providing communication skills, compatible work abilities, and overall guiding upcoming leaders. Together as a community, we can make strong impacts and changes for all students across Maryland. Creating leadership, passion, communication, and growth while making sure MASC grows stronger together over the years.

BRIANNA CUBA

★-CANDIDATE FOR MASC 2ND VICE PRESIDENT-★
