

First Aid Station

MASC has a certified adult on duty during all times for programming during our conferences. Students should let their on-site advisor know if they are going to the First Aid Station. The first aid provider is available to handle on-site urgent care. Visits will be documented.

On-site advisors will hold and administer any prescribed medications that students need. It is expected that the on-site advisor will have their school system's form for bringing and safely storing medications on a field trip.

The location for the First Aid Station is listed in the conference app and identified with large signage.

For the MASC convention, it is recommended that advisors keep a copy of student emergency forms if needed at the hotel at night.
