- Publications: Authored advocacy articles on education reform and civic engagement (featured by UNICEF USA and EdWeek)
- Technical Skills: Canva, Adobe Creative Cloud, Google Workspace, Microsoft Office Suite, Social Media Strategy

For every child

I was once a boy born across the Atlantic Ocean. Growing up in Nigeria, I witnessed poverty, corruption, and inequality firsthand. One day changed everything. My mother, who worked for the World Health Organization, took 7-year-old me to Makoko, a floating slum in Lagos. Seeing children my age in stained clothing, hustling in the streets to survive, struck something deep in me. That day, I found my purpose: to serve. More than a decade later, I'm doing just that, serving Maryland, guided by one principle: to serve what serves the people, what once served me.

Every child means exactly that. The kindergartener learning to read and the senior preparing for college. The student in AP Calculus and the one in a self-contained special education classroom. The child who speaks English as their third language and the one whose family has been here for generations. The artist, the athlete, the CTE student building their future with their hands, and the scholar buried in books. When I say I'm running to serve every child, I mean every single one because I've seen what happens when we forget even one.

Maryland faces a perfect storm. The Blueprint promises \$3.9 billion annually—teacher raises, expanded programs, special education support. But federal funding is under attack. Maryland is suing just to protect Title I dollars, IDEA funding, and CTE grants. Without clear priorities, history shows what gets cut first: advanced courses, career programs, special education, counselors, social workers. The students who can least afford it pay the price.

- **I will establish monthly "Student Impact on Funding" hearings**, bringing students from Title I schools, special education, CTE, and arts programs directly before the Board. Not statistics students. Their voices matter when we're deciding their futures.
- **I will expand the SMOB Advisory Council** to represent every student experience CTE, special education, multilingual learners, rural and urban schools, arts and athletics. Every funding decision must consider diverse voices.
- **I will be your voice to MSDE**, ensuring cuts are strategic and equitable, demanding transparency, and holding Maryland to its claim as the best state for education.

The Blueprint is Maryland's promise: invest wisely, and every child can succeed. But promises without priorities are just words.

I think back to Makoko, often brilliant, resilient children, forgotten. I think about how different my life could have been. And I think about Maryland students depending on adults to keep promises made to them. Every child deserves a champion willing to ask hard questions, demand accountability, and refuse to accept that anyone is disposable when budgets get tight.

I am running because Maryland can be the place where we keep that promise, not for some children, but for **every child**.

That's what service means. That's what this moment demands.

Vote David for State Student Member of the Board of Education.
