

First Aid Station

MASC has a certified adult on duty during all times for programming during our conference. Students should let their on-site advisor know if they are going to the First Aid Station. The first aid provider is available to handle on-site urgent care. Visits will be documented.

On-site advisors will hold and administer any prescribed medications that students need. It is expected that the on-site advisor will have their school system's form for bringing and safely storing medications on a field trip.

It is recommended that advisors keep a copy of student emergency forms if needed at the hotel at night.

You get to the First Aid Station from the main hall, next to the Performing Arts Center (PAC) lobby.
